Dr. Aver: Your P. 1850.

Dr. Aver: Your P. 1850.

They have cired my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

As a Family Physics. As a Family Physic.

From Dr. E. W. Cartheright, New Orleans.
Your Pills are the prince of purges. Their relient qualities surpass any cathartic we possessed they are mild, but very certain and effectual in the cition on the bowdes, which makes them invalue ous in the daily treatment of disease. Hendache, Sick Hendache, Foul Stomach,

DEAR BRO. AVER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purpative medicine. I place great dependence on that effecting catherine in my daily convest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTISHERG, Pa., May 1, 1855.
DR. J. C. AYER. Sir: I have been repeatedly used of the worst headache anybody can have by a lose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.
Clerk of Steamer Clarion.

Billous Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.
Not only are your Fills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of billous complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

Department of the Third Theodore, 1866.

Str. I have used your Fills in mmy general and hospital practice ever since you made them, and cannot hestitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organization of the content of the Merchant Dysentery, Dinrichea, Reliax, Worms.

Physician of the Marine Hopital

Dysentery, Dintrhean, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best sperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhead. Their sugar-conting makes them very acceptable and convenient for the use of women and children.

DR. AYER: I have used your Pills with extra-rdinary success in my family and among those I am ordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very lest remedy I have ever known, and I can conduct the commend them to my friends.

From Dr. J. P. Vaughn, Montreat, Canada.

Too much cannot be said of your Pills for the cure of costiceness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who sufter from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiceness to originate in the liver, but your Pills affect that organ and cure the disease.

discase.

From Mrs. E. Stuart, Physician and Midwife,
Boston.

I find one or two large doses of your Pills, taken
at the proper time, are excellent promotives of the
natural secretion when wholly or partially suppressed, and also very effectual to cleanse the
stomach and expel worms. They are so much the
best physic we have that I recommend no other to
my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis.

Church.

PULASKI HOUSS, SAVANIARI, GA., Jan. 6, 1856.
HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMMER, Baton Rouge, La., 5 Dec., 1855.

DR AVER: I have been entirely cured, by your Pills, of Rheumatic Gout — a painful disease that has afflicted me for years. VINCENT SLIDELL.

The Most of the Pills in market contain Mercury, which although a valuable remedy in skillth hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

The daily aw-weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule. We have not, hitherto, had time to take a general review of the proceed. ings of the Legislative Council during its present session, although several matters of grave interest to the Colcny have been under consideration. Perholidays is the most fitting time to place before our readers a brief review of the spirit and purpose of the legislation which has so far been attempted. It is gratifying to observe, that while the attendance at an inconvenient season of the year, upon the whole, was good; there has been an absence of local or class Legislation, and a ready disposition shown by all parties to indorse and support every measure introduced which bore directly upon the higher interests of the Colony, and few of those interests have been overlooked. Our own members have left an excellent record. At all times watchful of the interests of of Parliamentary proceedings they have manifested, as will be shown by our reports, a liberality towards and vigilance over the interests of their brother colonists at a distance, which reflect great credit upon them, and which, in our opinion, must go far towards convincing every unprejudiced mind that they have not, as charged, the least desire to oppose and kill every measure of good that does our foreign commerce by the adoption of drawbacks-the regulation of tariffs open up our immediate agricultural lands for occupation, the establishment of mutual benefit and co-operation Corporations amongst us, which have been so beneficial elsewhere, and the advocacy of a liberal policy in the possession of mineral lands, with other subsidiary and inferior matters, form the principal features of merit in their action. Other members representing constituencies on the mainland have been equally diligent and watchful, and with equal propriety advocated, as tar as the revenue of the Colony will admit, an extension of agriculture, abolition of injurious tolls, and the establishment of the mail service upon a footing that without impartiality or the possibility of failure may reach the most distant districts. It appears to us the Colony will derive much good from the measures of the present Legislative sitting. First of all, the vexed and injurious contest upon the Capital of the United Colonies has been settled in a quiet and dignified manner, which we trust will remove forever the spirit of contention it has fostered so long. The immediate result of this step will be to draw a united action from all sections and all classes of politicians to carry out successfully the measures excited. we have enumerated, and which already manifests itself in the mutual liberality of hitherto opposing factions, sion, one barrel recently discharged. Pris-The vexatious and expensive anomaly oner was remanded one week for further exot our Judiciary is in a fair way to receive a settlement agreeable to the behind a feeling of anger and jealousy. A due regard for the honor and the welfare of the Colony will be maintained in the Limitation of Actions Bill, so that it will neither become a debtor's prison nor a lurking place for dishonest fugitives. The petition from the Howe Sound Copper Mining Co., will have a very good effect in directing attention to the immediate want of a uniform system in the disposal of our mineral lands. Perhaps one of the most agreeable and hopeful fear tures of the legislation was the unanimous expression of liberality on the part of the Government in this respect, with a view to attract population to our shores, and to assist the development of our mineral ledges, which this petition drew from all sides of the House. Mining and agriculture,

two principal resources and means of

increasing our population which we

possess. If all are agreed to adopt the

most liberal policy to open them up to

competition, nothing can prevent its

immediate adoption, and thus a great

obstacle, in the opinion of many, to

grave question of Ways and Means to be met: but on the re-assembling next week we hope to see the same spirit of inquiry, moderation, intelligence, liberality and courtesy maintained to the end, feeling assured in that case the best interests of the Colony will be advanced.

WASHINGTON, April 9-In the Impeachment Court after examining two witnesses, Curtis commenced the opening argument for the defence and spoke till 4 p. m.

WASHINGTON, April 10-General Thomas estified that after informing the President that Stanton had asked for time to remove his papers, the President simply replied --"Very well, go on with your orders." He their constituents, and the proprieties | did not see the President again till after his arrest and liberation on bail; he then visited the President and informed him that he was in custody and on what charge. The President said, "Very well; that's what I wanted." He went into the War Office the same morning, demanding possession, which Stanton refused. He stated that after members of Congress and others had left be complained to Stanton that he had been arrested before breakfast and had had nothing to ear centre in Victoria. THE JUDICIARY .- It we have misquoted our cotemporary's article on the Judiciary, we are sorry; but we did not understand him to say that the public are dissatisfied with Mr Needham's decisions, while he certainly did say that every lawyer save one is, which we consider the silliest proposition that could be laid down. However, when a great public question is involved, there is no sense in splitting hairs, lest in doing so, we should lose sight of the main question. A Court of Appeal is desirable, no doubt of it; but a Court of Appeal, constituted as the News wants it, would be a burlesque on law and common sense. So far as our cotemporary's opposition to the bill now before the Legislature goes, we are with him; but we can imagine no state of things more prejudtcial to the public interests or detrimental to the proper and honest administration of the law than for a newspaper to open its columns to articles defamatory of a judge by any suitor who happens to have been worsted in a case. If such a practice were to obtain generally there would be an end to both law and justice, and the public would be indirectly placed under a tyranny more galling than any that could possibly arise under the presont system. Let us have a Court of Appeal; but we don't want the News to usurp gubernatorial functions by appointing the third

THEATRE ROYAL To-NIGHT .- The benefit of George W. Marsh takes place to-night, with a good programme offered for the occasion. It is scarcely necessary for us again to repeat our convictions upon baving a well conducted theatre in our midst, for that adwantage must be obvious to everyone. It is our duty to the Colony to attract visitors living near to our shores, and to gratily those who may chance to be amongst us. It is also our duty to provide rational recreation and amusement for our own people; and the theatre, properly managed, can be made to do much in this respect. Mr Marsh has given good entertainmenta, as far as the material at his command allowed. The family are also old residents of Victoria, and derive a claim from that ground for a corresponding patronage to-night. In addition, Mr Marsh, whilst lessee, has not forgotten to discharge the obligation resting on him to put the decorations of the house in a fit and proper condition and make it agreeable to those who attend. Upon the whole, as a thoroughly respectable citizen of the town, we acknowledge his claims upon the public and trust to see his son receive an appreciative patronage.

THE BRITISH MINISTRY -A paragraph in our telegraphic summary of Saturday, relative to the action of Lord Cranbourne, has given rise to a belief that the noble lord has succeeded Disraeli as Premier. Lord Cranbourne, it will be remembered, offered a resolution on the Irish Church question, which proposed the adoption of a medium policy between that proposed by the Government and that offered by Mr Gladstone. It is possible that the former measure was carried and that Lord Cranbourne has succeeded to the Premiership; but a telegram to our reporter below brought an answer that he had heard of no change in the Ministry.

NANAIMO .- The steamer Enterprise, on her way from New Westminster, came round by Nanaimo. There were three vessels waiting to load, the Nestor, Shooting Star and Eldorado, the total tonnage of which is 3500 tons. We understood, upon inquiry, that the lead never looked better than at present. while the depth attained gives a guarantee of greater improvement at greater depth. We shall watch with interest all progress made in the further development of the Nanaimo mine, for we have no greater interest than coal on the Island.

THE Portland folk telegraphed on Saturday that the steamer Active, having been four days off Columbia river bar, unable to cross owing to stormy weather, had probably come on to Victoria. A later telegram, received yesterday at this office, announces that the Active reached Portland at one o'clock yesterday morning. She will probably sail for Victoria to-morrow.

THE Siwash captured in the carpenter's shop on Good Friday morning appears to be a cracksman of the first grade. The very coat he were is identified as having been stoien, with other property, from the shop of Mr J Grahamslaw two weeks ago. The thief will come up for exemplary punishment

Correction-In the debate in the Council upon the motion of the hon Robson's road to St Marys and thence to the head of pavigation on the Fraser, the name of the hon. Smith was inserted by mistake for the name of the hon. Trutch, the latter gentleman speaking twice before the Committee.

THE ORIFLAMME, a fine, large steamship, takes the place of the California for Alaska via Victoria, and her sailing from San Francisco has been fixed for this afternoon. Her detention until to-day will enable the Post Office authorities to place aboard our mail, which was due yesterday at San Francisco.

A TELEGRAM announces the arrival at Yale on Saturday of the Cariboo express and mail.

OFFICE, 9th April, 1868 .- Saturday, the 11th inst, to Tuesday, the 14th inst., inclusive, will be kept as Easter holidays at the Public Offices .- By His Excellency's Command,

night, sometime between 8 and 12 o'clock. the dwelling of Adjutant Vinter, of the Rifle Corps, in Victoria west, was entered by burglars and robbed of some \$300 worth of clothing and jewelry, the property of Mr Musgrave W. Anderson. A coat belonging to Mr Vinter was also taken:

FROM BURRARD INLET .- The ship Rockwood, laden with lumber for Sydney, Australia. was towed down on Saturday night by the steamer Isabel from Stamp's mills, and is at anchor in the outer harbor. The ship Simoda is loaded at Moody's mills for China.

NEW CLOTHING STOCK .- Mr. W. Wilson, of Government Street, has received a portion of his spring stock of clothing, which he is offering at unprecedentedly low prices. The goods comprise the latest styles and patterns from the best London makers.

CONFEDERATION AT YALE .- On Thursday last an enthusiastic Confederation meeting was held at Yale: Addresses were made by several citizens, and resolutions advising the incorporation of this Colony with the Dominion passed:

THE new schooner Blanche, built by Capt Stamp at Burrard Inlet for the Sandwich Island trade, was towed into this barbor on Saturday. She is of about 50 tons burthen and will be fitted with sails here.

INQUEST .- A partial examination of the body of the Indian found in the iron house on Douglas street leads to the belief that he was brutally murdered. The inquiry stands adjourned until to-day.

THE FARMERS in the interior are engaged in ploughing. Favorable weather is three weeks or a month in advance of that of last

THE Enterprise returned on Saturday evening at 6:15 o'clock. She called at Nanaimo on her way down and took in about 30 tons

FAITHFUL MINISTERS OF HEALTH,-In examining the vessels at the various wharves we find among the curiosities of our commerce the brig Miranda, just in from Truxillo with a cargo of Honduras Sarsaparilla for Dr. J C Ayer & Co. of Lowell. So particular are this firm as to the articles used in compounding their various remedies, that they have this drug like some others they consume, gathered for them by a skilful agent of their own in the trepical regions of its growth. He informs us that there are many species of this plant, but two of which are really valuable in medicine; the qualities of these are also affected by the time of gathering, mode of caring, etc., operations which in that region of unreliable workmen imposes a heavy labor upon him. One of the inert varieties of Sarsaparilla grows wild in our own forests, while several others, nearly worthless, abound in Central and South America. The intelligent agent assured us that the virtues of this drug had never been fully told, and that the reason of the low esteem in which many hold it is mainly due to the importation of such immense quanti ties of the worthless varieties. His accounts of his trips to Honduras and his business exacurations along the Gulf of Dulce and the rivers of Montagua and Santiago and among the adjacent mountains were of intense in terest. We can but commend and honor his employers for the faithfulness and energy with which they execute their trust as min isters to the public health, and we suspect that this course is at least one of the reasons why their medicines are held in such extraordinary favor throughout the civilized world - | New York City News. \*

#### British Columbia Ruled and Ruined.

EDITOR COLONIST:—I request you will permit me to ask a question? Who is the Governor? Everyone knows Gov-Seymour was sent here from England to direct the fortunes of this young Colony. But is he the Governor? Judging by the evidence before me, I am inclined to believe that Mr Harper, a gentleman from the Southern States of America, is

in fact the governor.
You remember the route to Cariboo by the Harrison river, Douglas, Pemberton Meadows, Lillooet and Clinton? It was far superior to the new route by land from Yule to Olinton. This road mession through an irreclaimable wilderness. It is a triumph of art and wastful extravagance; to it is transferred the traffic from the other line, and the consequence is visible; the squatters have abandoned their farms and the richest district in

art. A road through the wilderness, not the way to any garden is clearly a job.
You heard of the Big Bend excitement in 1866, when thousands rushed from San Francisco to find nothing. The excitement was accepted at headquarters as evidence. Another road through another wilderness was made at vast ex-pence. Big Bend was deserted long ago, and there is another awful gash in the breast of the young Colony. Excitement is a bad witness! The tolls levied on the Yale road is collected by policemen: but under the present system it is impossible to check their accounts. I believe they are respectable men, but that is an accident. I do not find fault with them but with the system which is in truth a great

temptation. I suppose you are aware of the fact that the market in the gold mines of Cari-boo is supplied with flour, bacon and beans, produced in California; you also know that in the valleys of British Columbia all these necessaries may be produced in great quantities by experience and irrigation. We have no farmers in the country except the Cornwalls and three or four others. What has his Excellency done to encourage a home supply for the home market? Nothing at all. Is not it a shame to see the adventurous gold seekers of a British Colony, under such circumstances, depending on the foreigner for supplies? Down there in Victoria and New Westminster the people

rival capitals. Cariboo is the capital and the miners the soul of the Colony. Let them have cheap flour and beef, the best of everything at the lowest price, and the Colony will grow like an English oak. CHARLES GOOD, Assistant Colonial Secretary. Half the gold region has never been ex-

ANOTHER BURGLARY. -On last Tuesday plored. Cheap provisions will double the population in the mines and as a natural onsequence the whole Colony will flourish. The high price of provisions has thinned the population in the mines. Is his Excellency aware of the fact that if the miners were to leave there would be no people to be ruled. We have no farmers n the country. The squatters are broken down miners, men without experience or capital; they irrigate their patches and produce barley and hay to feed the pack mules. I do not expect his Excellency to become a farmer, but surely he should encourage agriculture. With a very small capital employed in fields within 30 miles of the mines he could this year produce wheat enough to feed all the miners, and if it were sold at the price of wheat in San Francisco it would leave a large surplus as interest on the expenditure.

It was a mere accident that the colony escaped this year. A few grasping speculators proceeded to buy all the wheat grown in the country. With this crop in their possession they could command any price in the mines or starve the miners, severe winter had come upon us. Mr. Harper, who happens to have, in Cariboo, the best market for his beef, saw the danger; he went into the wheat market and succeeded in getting about half the crop. To preserve his beef market he would sacrifice his flour and save British Columbia.

Is it not a sad sight to see such colony as this in such a state? Its very life so visibly dependent on an accident that may occur at any time. Would it not be advisable to make Harper Deputy Governor of Cariboo? If any man of common sense had an interest in the general welfare of the place it would prosper.

It is true that extravagance in road

making and an expensive, useless crowd of officials tend to make the people of this colony wish for a new form of Govern-A great many persons suppose that union with Canada would be a desirable change, a great gain to the people of British Columbia. Canada is a great great country; her statesmen have exhibited great ability, but a great portion of her territory is yet without a population. Is it reasonable to suppose that Canadian statesmen would direct any of the labour or capital required at home to the valleys of this remote land? A farmer without sufficient capital is sure to neglect that part of the farm furthest from his house. Nations are managed in the same manner. In fact, British Columbia is too young to be married and too poor. She requires education; she has no fortune, no surplus Marry for love is all moonshine, an idea "played out." An union with Canada would be no loss to her, no gain to us. We require a local, cheap Government, to connect the valleys by clearings and to encourage a home supply for home market at Cariboo. If we cannot get rid of the expensive system that provides us with roads through irreclaimable districts, and a crowd of paid idlers, let us make the match right It is better to be the farthest end of a farm managed by skill than the field next the house where the farmer sleeps all day and leaves his work to deputies.

G. A. K. The valley by Pavillion Mountain, Clin-

ton, March 2, 1868. P. S .- A copy of the Times of the 4th of January last, posted for me in London that day, arrived at Clinton on the 2d of March, and with it I received a copy of your paper, also published on the 4th of January, and, I suppose, posted the same day. The postal arrangements in this colony appear to be the worst in the world. Does England intend to hold Bricish Columbia? Is it possible that the waste and negligence are signs of leave taking!

#### The Pontifical Zouaves.

[From the Montreal Gazette.]

Yesterday morning about nine o'clock the Zouaves met at the Jesuit's Church, for inspection of baggage. Thence they proceeded to the Bishop's Palace, where they had an interview with His Lordship, and bade fare-well to their friends, and the clerky. A mass was then chaunted in the Bishop's Chapel and the Zuaves, accompanied by their friends and relatives and all the clerky and students of the city, marched to the station. The streets were crowded with spectators, who received the Papal soldiers with cheers. Arriving at the station they ran the usual gammeter of handshaking, embasses excellent and craims at the station they braces, crushing, and staring, as if they were a cross between a what is-it and a dying martyr. One unfortunate young hero from martyr. One unfortunate young here from the country who knew nobody gloomed on the platform, and kissed his hand frantically the country is reined—by a triumph of at nothing. The others cheered dispersedly, art. A road through the wilderness, not the way to any garden is clearly a lob. cessible; then the whistle booted, the crowd shouted, three small guns were fired, and amid waving caps and kerchiels, the train moved away. Thus ended the first act of one of the most extraordinary dramas ever conacted in Canada. A modern crusade in which have listed the flower of Canadian youth, and whose battlefield, if war arises, will be thousands of miles from home, under unlambliar skies, and among an alian people. We trust that they may not like the captives of old weep when sitting super fluminas, renembering the old sitting super fluminas, renembering the old

THE latest foreign duelling sensation oc-curred between a Prussian nobleman and an Austrian colonel. The quarrel originated in a railway train, about an open window, which the Prussian demanded to be closed. which the Prussian demanded to be closed. Arriving at a station seconds were procured, and with all the passengers as spectators the affair was arranged. Both fired at the same time, and the Austrian fell wornded in the knee. The Prussian was untouched, and moved off, saying: 'Gentlemen, excuse me, but I sm in a hurry to get home, and I must not miss the train.' 'Not yet, not yet, if you please,' said the Austrian Colonel, lifting himself from the ground, and pale and grastly standing on one leg; 'one more round, if you please.' The Prussian became livid, but took his place again. They fired, and the Austrian shot his man through the brain. The Count sprang a foot from the ground, and fell down dead:

Royal Artillery .- Holloway's Ointment and Pills .- A serjeant in the Royal Artillery writes on December 12th, 1862, from Poonsmattee. Madras Presidency, that his right leg, from the ankle to the calf, was a quagmire of disease and corruption that he was on the hospital roll for twelve months without any improvement in his Monday, April 13th, case; that he, as a forlorn hope, resolved to try Holloway's cilebrated Ointment and Pills. THE LEADING PERFUME OF THE AGE! From Fresh Culled Flowers.

MURRAY & LANMAN'S

CELEBRATED

Florida Water.

This exquisite Perfume is prepared direct from Bloom ing Tropical Flowers, ofsurpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightul Bucy ancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For Fainting Turns,

Mervousness, Headache. Debility, And Hysteria

It is a sure and speedy relief with the yery KIDE of Gashlon; it has for 25 years maintained its ascendancy over allother perfuses, throughout the West Indies Jaba, Maxico and Central and South America, and we confidently recommend it as an article which, for the delicacy of flavor, richness of bequet, and permatee, has no equal. It will also remove from the skin

Roughness, Blotches, Sun Burn. Freckles, And Pimples.

It is as delicious as the Orto or Roses and lends freshness and beautiful transparency to the complexion. Is-uted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

THESE different medicines represent the most recent

nedical disoveries, founded on the principles of Chemistry and Therapeutics, They must not be confounde with secret or quack medicines, as their names suffici ently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the those numerous medicines advertised in the public papers as able to cure every possible disease, as they ore applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have under gone an examination by the Academy of Medicin and bave been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorise by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault et Co.'s Medi-
